MINING SOLUTIONS COOLING DIVISION

SAND BLAST SCREENS

H-E PARTS MINING SOLUTIONS COOLING DIVISION (H-E PARTS) ARE A LEADING PROVIDER OF RELIABLE, APPLICATION SPECIFIC HEAT TRANSFER SOLUTIONS. H-E PARTS MANUFACTURE AND SUPPLY HIGH QUALITY, INNOVATIVE PRODUCTS THAT ARE TAILORED TO OUR CUSTOMERS SPECIFIC REQUIREMENTS. H-E PARTS IN-HOUSE ENGINEERING, PRODUCT AND SERVICE OFFERINGS, GUARANTEE WE SUPPORT CUSTOMERS THROUGHOUT THE FULL PRODUCT LIFECYCLE AND ENSURES THE LOWEST TOTAL COST OF OWNERSHIP IS ACHIEVED.

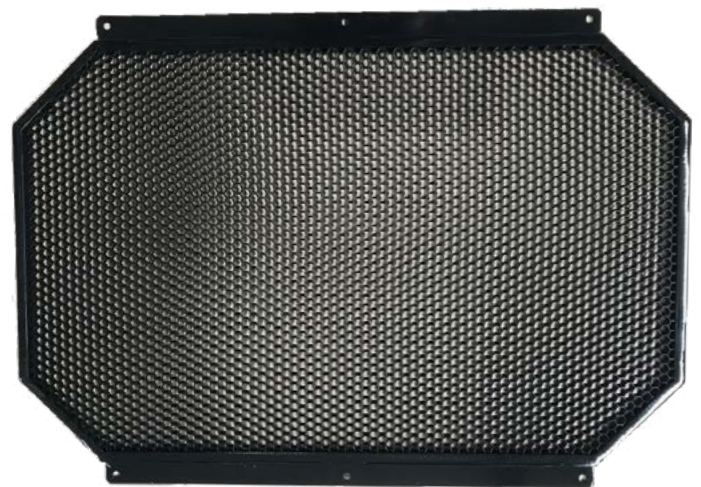

H-E Parts design and manufacture sand blast screens using a high quality mild steel to suit a variety of different cooling packages.

These sandblast screens are commonly used in applications that are subject to harsh environments which can cause debris to come in contact with the radiator cores, causing premature failures.

FEATURES AND BENEFITS

- Durable mild steel, powder coated to prevent erosion
- Honeycomb construction, manufactured to the highest standards
- Prolongs life by absorbing impact
- Supplied with custom mounting equipment

H-E Parts in-house engineering and manufacturing team, can design and manufacture a premium quality design to prevent damage and premature failures for any application.
