

INNOVATION.
NOT DUPLICATION.™

LASER ALIGNMENT

H-E PARTS INTERNATIONAL (H-E PARTS) OFFERS SPECIALIZED MAINTENANCE SERVICES FOR ALL YOUR MINERALS PROCESSING EQUIPMENT AND COMPONENTS. H-E PARTS OFFERS TAILORED SOLUTIONS THAT PROVIDE ADDED VALUE BY EXTENDING SERVICE INTERVALS, IMPROVING PLANT PERFORMANCE AND PRODUCTIVITY, WHILE REDUCING DOWNTIME AND ASSOCIATED LIFECYCLE COSTS.

LASER ALIGNMENT

At H-E Parts, we offer engineering services to reduce risk during maintenance activities on crusher and screen components at scheduled change-outs and rebuilds on site, and in the workshop.

Expanding on our current service capability with the addition of a stand-alone or inclusive alignment offering, H-E Parts now offer a turn key solution for customers. With the inclusion of laser alignment that enables powerful, fast, and efficient alignment on rotatable shafts and machines, we can manage all processes in-house to remove the need for third party or OEM reliance.

Precision alignment supports good engineering practice that offers quality assurance for crucial condition monitoring of major components.

- Increase machine life
- Reducing vibrations to reduce wear
- Reducing power consumption
- Reduce temperatures that can cause premature cracking on bearings and couplings

H-E Parts International replacement parts are compatible with the makes and/or models of the third-party equipment described. H-E Parts International is not an authorized repair facility of these third parties and it does not have an affiliation with any manufacturers of these third-party products. All brands, original equipment manufacturer (OEM) part numbers or references are owned by the respective OEM entities or their affiliates. These terms are used by H-E Parts International for identification and cross reference purposes only and are not intended to indicate affiliation with, or approval by the OEM, of H-E Parts International or its products.
